SKILLS

HTML
CSS
JavaScript
jQuery
Node.js
Bootstrap
SASS
Git
Figma
Adobe Xd
Photoshop
Illustrator

Self-driven, software engineer with the ability to adapt and prioritize. My experience in customer service, graphic design, and marketing allows me to understand how to deliver and develop projects that are clean and efficient. My passion for problem-solving and attention to detail also adds to my dedication to build progressively. I'm seeking to launch a career, developing web applications to improve a business' user interaction.

PROJECTS

Eclipse - Weather App | FEB 2022

Personal Project

Repository: <https://github.com/ariicodes/eclipse-weather-app>

Live App: <https://ariicodes.github.io/eclipse-weather-app/>

Eclipse was developed to exercise my **JavaScript** skills and ability to use **APIs**. I designed this web app using **Adobe Xd** and developed it using **HTML** and vanilla **CSS**.
